

1. What is the name of this landform?

- ☐ A Drumlin
- ☐ B Lateral moraine
- ☐ C Glacially abraded rock knob
- ☐ D Pressure dome

2. The valley in the picture below was formed by:

- ☐ A glacier
- ☐ B river
- ☐ C a lava flow
- ☐ D a rift valley

3. In which countries is the homeland of the native people shown in the picture below found?

- ☐ A Russia, Estonia, Sweden, Norway
- ☐ B Finland, Sweden, Norway, Denmark
- ☐ C Estonia, Latvia, Lithuania, Russia
- ☐ D Sweden, Norway, Finland, Russia

4. What does Taiga mean?

- ☐ A Name of a climate zone
- ☐ B Name of a vegetation zone
- ☐ C Name of a desert type
- ☐ D The name of a specific weather pattern

5. What does the map show?

- ☐ A a) All third world countries
- ☐ B b) Least Developed Countries
- ☐ C c) Countries with a HDI below 0.7
- ☐ D d) Landlocked Developing Countries

6. What does the map show?

- ☐ A Distribution of tropical cyclones
- ☐ B Distribution of tornados
- ☐ C Pattern of the Intertropical convergence zone
- ☐ D Most important trade routes

7. What does the picture show?

- ☐ A Rockfall sediments
- ☐ B Lateral erosion
- ☐ C Lateral moraine
- ☐ D Levee

8. Which picture shows the so-called Bise weather situation?

- ☐ A a
- ☐ B b
- ☐ C c
- ☐ D d

9. Through which country does the Nil River NOT flow?

- ☐ A Egypt
- ☐ B Ethiopia
- ☐ C Niger
- ☐ D Sudan

10. The informal sector is...

- ☐ A A part of the gross domestic product
- ☐ B A synonym for subsistence economy
- ☐ C A sector of urbanization
- ☐ D A synonym for shadow economy

**11. With an anemometer you can measure...**

- ☐ A the amount of reflected infrared radiation
- ☐ B the windspeed
- ☐ C the air pressure
- ☐ D the water depth

**12. In an El Niño year**

- ☐ A there is no upwelling of cold water in the East Pacific, off the coast of Peru
- ☐ B the Southeast trade winds are very strong
- ☐ C there is a well-developed low pressure area above Australia and Southeast Asia
- ☐ D the Walker Circulation is fully developed

**13. Marble**

- ☐ A is an igneous rock
- ☐ B is a sedimentary rock
- ☐ C is a metamorphic rock
- ☐ D is a mineral

**14. Which climate zone is described by high temperature over the whole year and a lot of precipitation during summer?**

- ☐ A temperate climate
- ☐ B savanna climate
- ☐ C continental climate
- ☐ D etesian climate

**15. How much time has passed since Australia and Antarctica did separate from each other?**

- ☐ A 16 million years
- ☐ B 50'000 years
- ☐ C they had never been together
- ☐ D 50 million years

**16. What's a loxodrome?**

- ☐ A a line which includes all points with the same altitude above sea level
- ☐ B a special sort of an isobar
- ☐ C a connected line between two points on the Earth's surface, which cuts every meridian with the same angle
- ☐ D the shortest connection between two points on the Earth's surface

17. What does the map below represent?

- ☐ A the areas, where the average temperature of January is under zero degrees
- ☐ B the maximum extent of the Mesozoic sea
- ☐ C the maximal glaciation during the last ice age
- ☐ D all points with an altitude of 400 m above mean sea level or more

18. What is NOT typical for a stratovolcano?

- ☐ A pyroclastic flow
- ☐ B long rest periods
- ☐ C steep slopes
- ☐ D effusion

19. What does the picture show?

- ☐ A a traditional Yanomami maloca
- ☐ B an open pit diamond mine
- ☐ C a cult place from the Penan people
- ☐ D a traditional combat sports area

20. Which of the following products does not contain palm oil.

- ☐ A 1
- ☐ B 2
- ☐ C 3
- ☐ D 4

21. GPS and determination of an earthquake's epicenter both calculate locations based on:

- ☐ A the global two-dimensional coordinate grid (northing and easting)
- ☐ B the loss of amplitude in the communication between devices
- ☐ C multiple non-stationary measurement devices
- ☐ D the amount of time it takes for a signal to travel from a source to a sensor

**22. A tsunami is caused by the following:**

- ☐ A An earthquake near the coastline of a continent
- ☐ B A vertical movement of the ocean floor
- ☐ C Heavy winds during a hurricane or tropical storm
- ☐ D Abrupt temperature differences in the lower atmosphere

**23. Where were the traditional places of classic villa quarters in Swiss Cities of the 19th century?**

- ☐ A next to the railway station
- ☐ B at slopes exposed to the south
- ☐ C next to the factories
- ☐ D near the centre of the city

**24. You are staying in Turkey and it's a cloudy day. You don't speak Turkish and your watch and smartphone have been stolen. How can you orientate yourself based on the cardinal direction?**

- ☐ A You go to a mosque and you look for the prayer niche.
- ☐ B You are studying swarms of birds.
- ☐ C You interpret the position based on the river flows.
- ☐ D You are looking for a parting of the ways.

**25. Which phenomenon has NOTHING to do with economic globalization?**

- ☐ A Increase of foreign direct investments.
- ☐ B Outsourcing of manufacturing.
- ☐ C Bigger transport volumes.
- ☐ D Increase of armed conflicts

**26. The map shows the global timing of peak cloudiness. Each color represents a specific month. Which month is indicated by the orange color?**

- ☐ A February
- ☐ B May
- ☐ C August
- ☐ D November

**27. What structures are shown in the image?**

- ☐ A sandstone
- ☐ B lava flows
- ☐ C dunes
- ☐ D dried out sea floor

**28. Where is 0°N 0°W?**

- ☐ A North Pole
- ☐ B Equator Pacific
- ☐ C Equator Atlantic
- ☐ D South Pole

**29. What is meant by the term „green revolution“?**

- ☐ A ecological movement
- ☐ B agricultural innovations
- ☐ C political movement in Arab countries
- ☐ D discovery of biofuels

**30. What is meant by the abbreviation HDI?**

- ☐ A human development index
- ☐ B heavily destroying industry
- ☐ C humidity-drought interference
- ☐ D hole depth indicator

**31. What is NOT an environmental function of corals?**

- ☐ A cleaning water
- ☐ B habitat for species
- ☐ C prevents coastal erosion
- ☐ D touristic attraction

**32. What is the major reason for the drying of Lake Aral?**

- ☐ A less precipitation
- ☐ B more water flowing out of the lake
- ☐ C higher temperatures
- ☐ D less water flowing into the lake

33. What term describes a process of city renewal?

- ☐ A gentrification
- ☐ B segregation
- ☐ C urbanisation
- ☐ D urban sprawl

34. Sort the following countries by increasing numbers of inhabitants: A) France, B) Sweden, C) Germany, D) Poland ?

- ☐ A D B C A
- ☐ B D C B A
- ☐ C A C B D
- ☐ D B D A C

35. This image shows the direction of the sun rays (yellow) at a certain time. Which date is it?

- ☐ A 21st of March
- ☐ B 21st of June
- ☐ C 25th of September
- ☐ D 21st of December

36. Which statement regarding the magnitude is correct?

- ☐ A The magnitude measures the intensity of an earthquake and the impact of the earthquake on people and buildings.
- ☐ B The magnitude is a subjective degree for the energy which one can measure on the earth surface.
- ☐ C For the calculation of the magnitude one needs the maximal amplitude and the distance of the seismometer to the hypocentre.
- ☐ D For the calculation of the magnitude one needs the relative ground motion at the hypocentre and the distance between the seismometer and the hypocentre.

37. During a stable temperature inversion in autumn and winter, the concentration of a certain air pollutant in the Swiss Mittelland increases a lot. Which air pollutant is increasing?

- ☐ A Ozone (O<sub>3</sub>)
- ☐ B Particulate matter (PM<sub>10</sub>)
- ☐ C Nitrous oxide (N<sub>2</sub>O)
- ☐ D Carbon monoxide (CO)

**38. For which pass or mountain is the rock below typical?**

- ☐ A Eiger
- ☐ B Gemmi
- ☐ C Säntis
- ☐ D Gotthard

**39. Which of the following seismic waves is the fastest?**

- ☐ A P-wave
- ☐ B S-wave
- ☐ C Rayleigh-wave
- ☐ D Love-wave

**40. A tropical cyclone develops...**

- ☐ A Over land
- ☐ B Over water
- ☐ C At the equator
- ☐ D Also in Switzerland
